

# Here we go

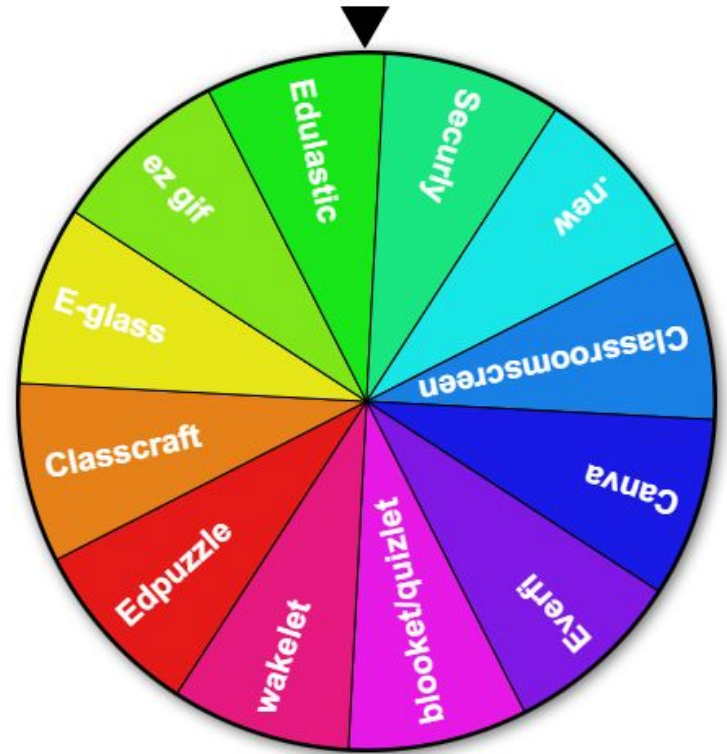

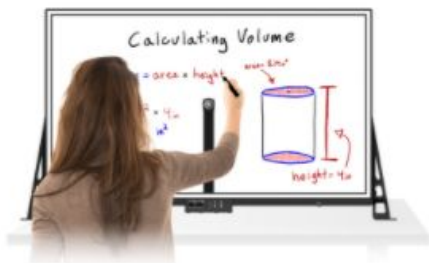

Two types of activities:

- Spreadsheet based

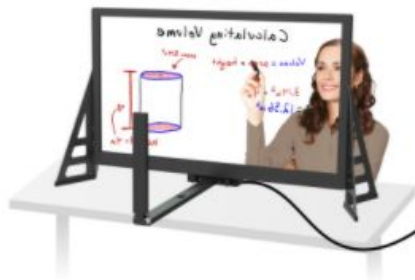

- Quick and easy (no spreadsheets need)

# eGlass

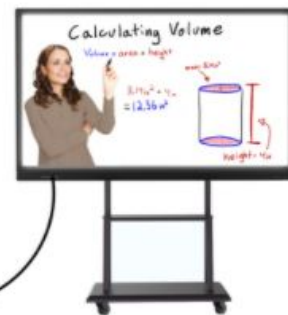

Write on eGlass normally. ChromaClear technology gives ink a vivid glow.

Built-in camera captures the instructor's writing and face, and flips the image so students see it correctly.

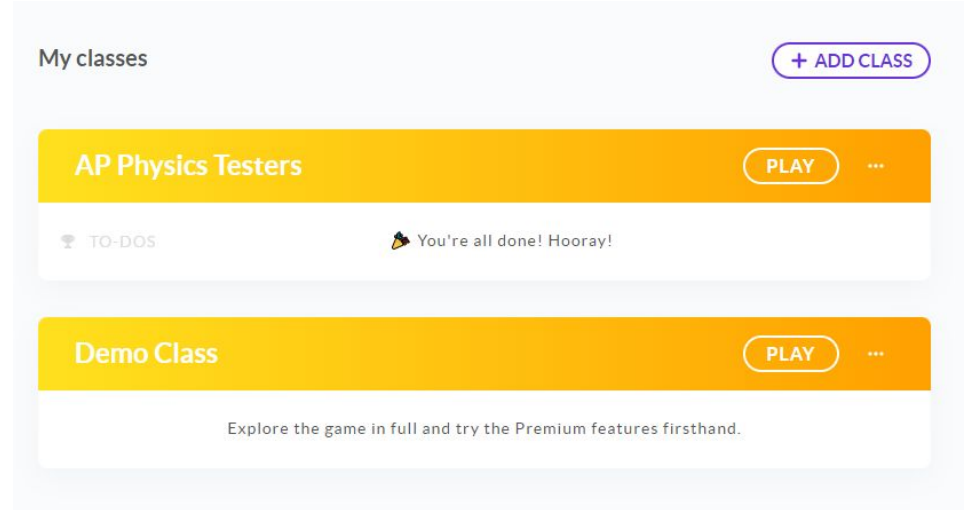

Plug into laptop to display image and add digital content.

Plug into screen or projector to display in-class.

-  Gamifying the classroom
-  Rewards positive behaviors
-  Promotes group work
-  Individualized Lessons
-  Integrates with google classroom
-  Freemium (free and paid versions)

An assignment/test generator where students can complete in the digital platform.

#### Pro's:

- Integrates with google
- Decent free options

#### Con's:

- Not a lot for high school NY standards
- Premium options give you more features

# ProblemAttic

# Full “courses” that students can complete on various topics

## Pro's:

- Free
- Can be integrated into various content areas
- Comes complete with all resources
- Provides real world examples of content
- Engaging content and graphics

## Con's:

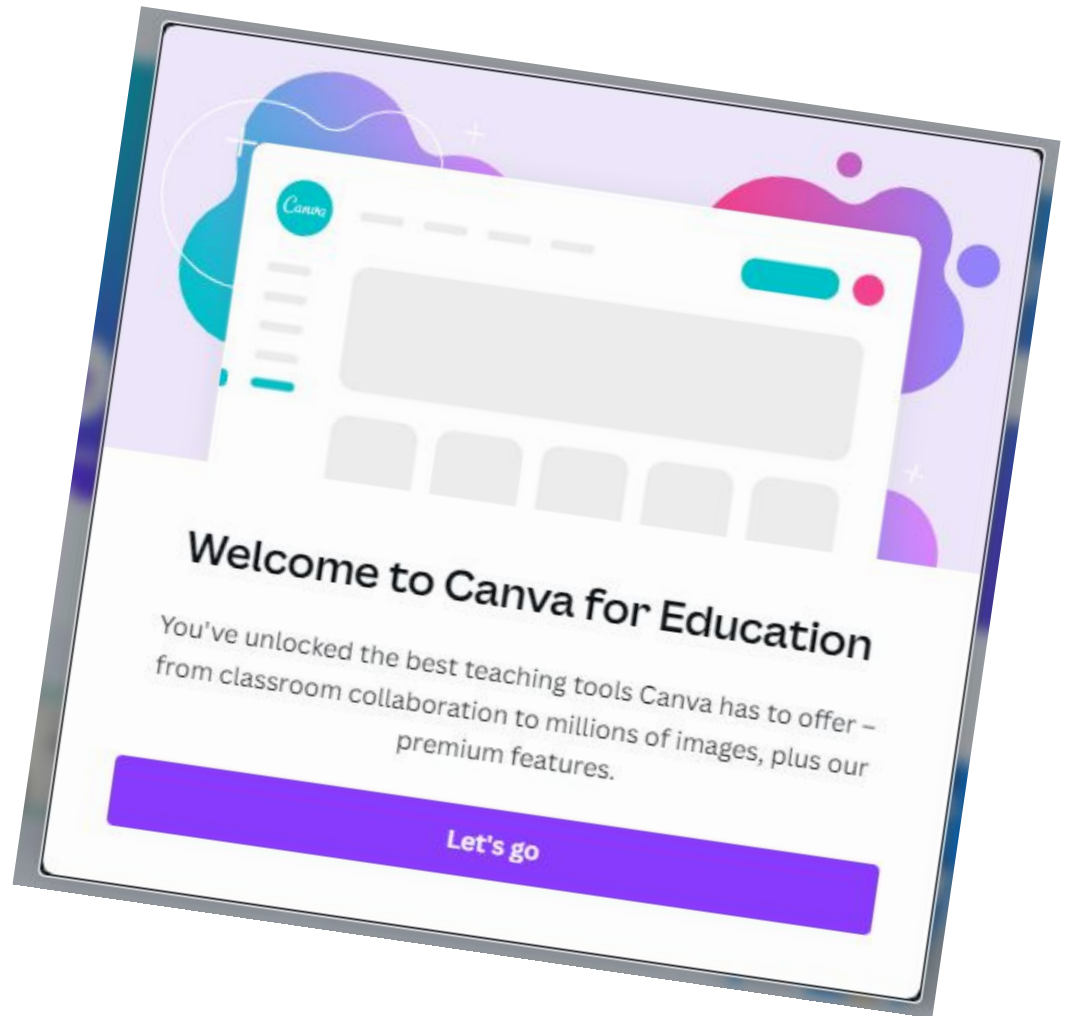

- Only loosely aligned with curriculum (as far as I can tell)

## Digital Content Creator

- Presentations
- Infographics
- Videos
- Posters
- Logos!

(also can resize, optimize, etc etc)

# **blooket ↔ quizlet**

Quizlet: Using vocabulary sets to quiz kids AND have them work collaboratively.  
Can be used as a review or to introduce a new unit

Blooket: take your vocabulary sets and make them into a Kahoot-like game, but better. Students compete against each other in various ways, and they get pretty competitive.

A place to keep multiple media sources that can be shared with students and added to as necessary. Could be great for self paced learning, research projects where you want to limit resources, choice boards, etc.
